Concern was raised that the road sweeper still has not been out to Woodland.

d) There were members of the public were in attendance.

Concern was raised about Occupation Lane recently being blocked. The lady looked into this matter and found out that signs were put up in 2008 saying there is a permissive right of way but this was not registered with LDNPA which it should be under the Highways Act 1980 section 31(6). Concerned that the Parish Council have had two opportunities to make the application to have the lane registered as a Bridleway but have not seen it through to a conclusion and there is additional concern that there is a cut-off date of 2025 to register rights of way. There is also concern that the permissive right of way be removed. A request was made to the parish council to pursue the application to make it a Bridleway. There is an alternative being a Byway open to all traffic but there is concern that the landowners would object to that. Another member of the public advised that horse riders regularly ride down Occupation Lane. She would like to stay in touch with the County Cllr about issues regarding cycle routes and active travel and hopes that horse riders will not be forgotten as vulnerable road users.
