# BROUGHTON COMMUNITY HANDBOOK

A tall, weathered stone obelisk monument stands in the center of a town square. The monument is made of large, rectangular stone blocks and has a tiered base. It is surrounded by parked cars and residential buildings. The background shows a row of houses with grey roofs and white walls. A large green tree is visible behind the monument. The sky is blue with some light clouds. The overall scene is a typical town square in a small town or village.

## INTRODUCTION

This handbook has been produced in response to the Broughton Community Plan to provide information on local activities, services and facilities.

All details were correct at the time of going to press but things do change so check for the latest information on relevant websites, at Broughton Community Information Centre, or in the Parish Pump newsletter.

Please let us know if you would like information changed or included in the next edition of this handbook, or if you would like to volunteer in any way to help the community. Do get involved!

We would like to thank the Parish Pump for meeting our printing costs. The donation was from revenue raised from regular advertising by local businesses.
